PERGAMON

MARINE POLLUTION BULLETIN

The International Journal for Marine Environmentalists, Scientists, Engineers, Administrators, Politicians, and Lawyers.

The Marine Pollution Bulletin sets out to cover all aspects of the environmental conditions of estuaries, seas and oceans. The journal welcomes news, comment, reviews, and research reports, not only on the threat of noxious substances to marine life but also on the productivity, processes and functions of the marine environment, and the effects of mankind (including management) on these. It publishes accounts of economic and legal as well as scientific aspects of marine pollution.

Subscription Information
Annual Institutional Subscription Rates 1997: Europe, The CIS and Japan, 1063 Dutch Guilders. All other countries, US$656.00. Dutch Guilder prices exclude VAT. Non-VAT registered customers in the European Community will be charged the appropriate VAT in addition to the price listed. Prices include postage and insurance and are subject to change without notice. Any enquiry relating to subscriptions should be sent to: **The Americas**: Elsevier Science, Customer Support Department, P.O.
